Practice:

Please take care during any sighting laps this weekend as it may be dusty or slippery, stay a safe distance apart and look out for obstacles. We will have a good gap so everyone will get a clear run.

Entering & Exiting the Starting Area:

Please be aware of other riders and public in the Start area and ride appropriately.

Timing:

Daniel and Isaac will be doing the timing, as per normal your time starts from when you pass through the time gate. Please

check where these are and stay clear of them before you start your run as it can cause false hits before you have gone.

Public have Access:

Be mindful of the security of your equipment when you are on track. Be mindful of public safety when riding around, if everyone acts smart then you can ride slowly through the pits otherwise, we can do it the hard way and EVERYONE will push their bikes.

Motorcycles:

May only be ridden in the designated areas and the racetrack. No one is to ride at all in areas where there is public access like on the roads or places other than the pits, If you do you can be penalized!

Crashes & Breakdowns:

If possible, get yourself and your bike off the track – Marshals will come along and will organize getting your bike back if need be, when recovery equipment is available.

Anyone who has been Hospitalised in the last 7 days should check in with the medical team, so they know your medical history should they have to deal with you during the event. They are here to keep you racing and a little knowledge before the race will help that.
